Model 8100 shown in Colonial design with Cathedral I window inserts.

Door Construction

- Embossed, high tensile steel panels give the look of wood with the strength of steel.
- Two-coat, baked-on polyester finish is virtually maintenance-free. This finish also makes an excellent base if you repaint to match the existing exterior colors of your home.
- Full 2"-thick door panels have box-shaped 20-gauge stiles for strength and rigidity.
- Contains expanded polystyrene insulation (Model 8000 is non-insulated).
- Windload models available. 
- Heavy-gauge steel wraparound end caps trim-out door edges for better appearance, improved strength and protection of the insulation from damage.
- Sound-absorbing insulation in Models 8100 and 8200 makes the door operate quieter and reduces wind-rattling.
- SilentGlide™ nylon rollers with solid steel shafts provide years of smooth, quiet and dependable operation.
- An insulated garage door improves your energy efficiency and makes your house more green.

*Insulation values have been calculated in compliance with Dasma TDS-163 industry standards.

Models 8000/8100/8200 Specifications

Safety & Security

The Wayne-Dalton TorqueMaster® Plus is the first counterbalance system to seal springs safely within a steel tube. It contains an anti-drop feature that eliminates the risk of door "free fall" and prevents potential serious injury.

Warranty

Models 8200, 8100 and 8000 offer a 10-Year Limited Warranty against cracking, splitting, rusting through or section deterioration. See dealer for complete warranty details.

Energy Efficiency & Noise Control

- Model 8200 has expanded polystyrene insulation and delivers R-7.8* thermal performance.
- Model 8100 has expanded polystyrene insulation and delivers R-3.7* thermal performance.
- Model 8000 is non-insulated.
- Tongue-and-groove panel joints fit together snugly to help seal out wind and weather.
- Bulb-shaped bottom seal remains flexible even in the cold to keep out bad weather.

* Insulation values have been calculated in compliance with DASMA TSD-163 industry standards.
