

INTEGRAL FRAME ROLLING COUNTER SHUTTERS

WAYNE DALTON COMMERCIAL DOORS

Integral Frame Rolling Counter Shutters

QUALITY. CONVENIENCE. DURABILITY.

Wayne Dalton's Integral Frame Rolling Counter Shutters satisfy a range of project requirements with ease and style. Designed to fit openings up to 12'4" wide by 6'0" high (3759 mm by 1829 mm) these rolling counter doors feature integral all-steel frames and sills. The choice of a galvanized steel, stainless steel or aluminum curtain provides design flexibility, while the doors' attractive, finished appearance make them ideal for any number of applications, particularly in food service areas.

- STANDARD SIZES UP TO 12' 4" WIDE AND 6' HIGH
- COMMERCIAL DURABILITY AND ATTRACTIVE APPEARANCE
- 16-GAUGE FRAME AND 14-GAUGE SILL

Thru 12' (3658 mm)	22 ga.	galvanized	stainless steel

Slats are galvanized and painted or stainless steel (ss).

Easy Installation

Our Integral Frame Rolling Counter Shutters arrive on the job site ready to install. These doors offer the precision assembly of a factory-welded unit, providing the utmost in convenience and quality in a complete line of rolling counter doors. These shutters are mounted in between the jambs, and are installed as the wall is built. As an option, the shutter is available as a built-in unit for an existing opening. Standard operation is manual push-up and crank operation is available as an option.

Built to Last

Our shutters are built for long-lasting good looks and performance. Whether you choose a curtain of 22-gauge galvanized steel, 22-gauge stainless steel or 1.3 mm aluminum slats, you will receive a shutter door that is both durable and attractive. These doors feature all-steel 16-gauge frames, fascia and hood, as well as 14-gauge sills. Bottom bars, lift handles and slide bolts are fabricated of aluminum, stainless or steel with vinyl astragals for added durability.

An Attractive and Smart Solution

Interlocking slats with a flat profile provide an attractive and tight fit, while endlocks on alternative slats eliminate lateral movement and maintain curtain alignment. The adjustable counterbalance assembly features helical torsion springs in a steel tube or pipe barrel, presenting a clean, finished look.

**If a fire-rated door is required, ask your local Wayne Dalton Dealer for information about our FireStar® fire doors, including counter fire doors and shutters.*
