

An attractive and practical solution
for your counter shutter needs.

DS-50

Light Commercial DS-50 Roll-Up Counter Shutters

Our attractive counter shutters harmonize with virtually any building decor while protecting property from pilferage and unauthorized entry.

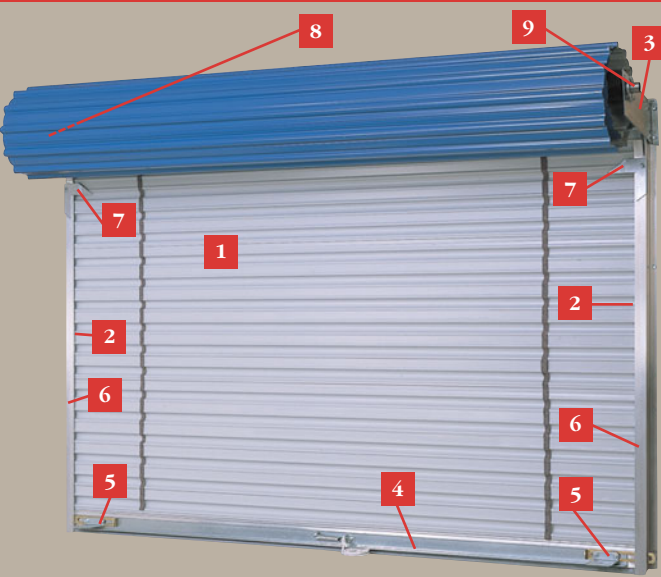

DS-50 Roll-Up Counter Shutters are available in round or square profiles. The continuous curtains are made from hot-dipped galvanized steel, and then finished with silicone polyester paint for beauty and durability.

Steel slide-bolt assemblies at each inside bottom corner secure the shutter in its fully closed position. Both slide-bolts also accept padlocks. A sliding mini curtain lock also is available for securing the shutter from outside.

DS-50 Roll-Up Counter Shutters are available in sizes up to 6 ft. high and 12 ft. wide in a variety of standard and special colors. You get the counter shutters you need with timely delivery and attractive pricing. Write, call or fax us for specifying/ordering information.

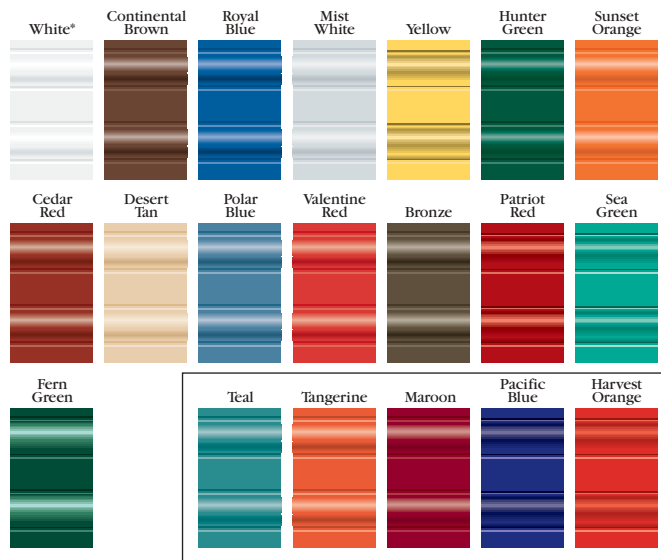

ONE FIRST AFTER ANOTHER.SM

With DS-50 shutters, you can close up confidently.

- 1** *Corrugated counter shutter*, available in round or square profile, is hot-dipped, galvanized 26-Ga. steel, primed then finished with high gloss silicone polyester paint.
- 2** *Polypropylene anti-wear strips* come factory-installed as continuous guides for sliding metal parts, providing quieter operation and longer service life.
- 3** *Rigid support bracket with bearings* hold constant shutter tension, and allow easy adjustments.
- 4** *Bottom angle assembly* includes heavy-duty steel angle, extruded aluminum bottom bar and replaceable tubular-type vinyl astragal.
- 5** *Slide-bolt assemblies* fabricated of heavy-duty steel lock the closed shutter from inside at both bottom corners. For added security, the slide bolts also accept padlocks.
- 6** *Roll-up shutter guides* are extruded aluminum, 2" wide. DS-50 guides install to masonry, steel or wood construction equally well.
- 7** *Automatic door stops* prevent shutter from rolling up past the header.
- 8** *Oil-tempered steel spring* is engineered to counterbalance different shutter sizes and weights for smooth, easy operation. The spring is shot peened to increase strength and add cycle life to the spring.
- 9** *Heavy-duty steel axle* supports shutter curtain and counterbalance system.

20 Year Warranty Against Chalk and Fade

10 Year Warranty Against Chalk and Fade

* White is also available in a Glossy White finish

Optional Tension-Pro™ Adjustable Spring Device allows adjustments to be made to the counterbalance easily and safely. No special tools are needed. No pins to align. No risk of tension being released accidentally. U.S. Patent #6,527,037.

Standard support brackets include anti-friction bearings.

Optional mini curtain lock allows access from outside. Designed for owner/tenant security. Rust resistant.

Warranty: Wayne-Dalton Corp. and its subsidiaries back all of their doors and fittings with a LIMITED WARRANTY against defects in materials and workmanship. Paint has a limited warranty to hold up against weather induced chipping, cracking, and peeling for 25 years. Refer to each color for the number of years warranted not to chalk or change color. A copy of this warranty is available upon request.

Because of continuing product improvements, we reserve the right to change the product specifications and designs without prior notice.
