

IT'S SMALL, BUT IT CAN STOP A GARAGE DOOR IN ITS TRACKS.

New TorqueMaster Plus™ eliminates risk of entrapment under free-falling doors.*

Once again, Wayne-Dalton is leading the industry with an important safety innovation: TorqueMaster Plus prevents injury to people or pets from falling doors in the event of catastrophic spring failure.

Wayne-Dalton was first with pinch-resistant door panels, safety sealed springs and “smart” openers. Now, TorqueMaster Plus proves “One First After Another” is more than a slogan – it’s the way things work at Wayne-Dalton.

**Stops up to a 240-pound garage door from free-falling in less than 1 inch.*

HOW CAN SOMETHING SO SMALL STOP SOMETHING SO BIG.

New TorqueMaster Plus™ eliminates risk of entrapment under free-falling garage doors.*
