The warm look of traditional
wood panel doors

Colonial Model 106, Stockton windows

door construction

First impressions last, and a Colonial wood panel door gives your home a quality appearance that endures year after year. Designed for easy operation and strongly built, Colonial doors make beauty and convenience surprisingly affordable. An extended warranty insures their quality.

Colonial doors are designed and hand-crafted to meet your highest expectations. We've combined precision construction methods with today's technology in creating an exceptional high quality wood door.

Crafted in first class tradition

- Shiplap style connections between sections provide a weathertight fit, and smooth operation. Tracks and hardware are rust-resistant, hot-dipped galvanized steel.
- Individual door sections a full 1-3/8" thick.
- Center panels are durable, 1/4" exterior-grade mahogany plywood.
- Panel frames (rails and stiles) are made from high-quality, kiln-dried West Coast hemlock, sitka spruce or equal.
- Model 106: Standard duty rails and stiles. Model 116: Heavy duty rails and stiles.
- Mortise and tenon joints are glued and steel-pinned for lasting strength.
