Wayne Dalton Returns to the 2020 International Builders' Show

Wayne Dalton will give attendees an opportunity to interact with its versatile residential door solutions as they showcase Model 8800 and Model 9700

January 14, 2020 - Wayne Dalton, one of the premiere manufacturers of residential and commercial doors in the United States, will showcase its Model 9700 Carriage House Steel and Model 8800 Contemporary Aluminum at the National Association of Home Builders (NAHB) 2020 International Builders' Show. The International Builders' Show is the home building industry's premier event where thousands of industry experts gather to exchange ideas, discuss challenges and access real business solutions. This year, attendees will gain first-hand information on Wayne Dalton's sleek and eye-catching residential garage doors.

"The International Builders' Show is a time for us to connect with national manufacturers and suppliers to discuss their businesses, offer advice, get inspiration about the latest trends in the housing industry and learn about advancements in technology, as well as energy-efficiency," said Wayne Dalton Senior Brand Manager Sarah Schram.

PRODUCTS TO BE SHOWCASED

Model 9700 Carriage House Steel

Wayne Dalton's steel garage door Model 9700 is stylish and versatile, offering a variety of carriage house designs, large windows and a wide range of colors and stain options. These carriage house garage doors offer embossed, high tensile steel panels that give the look of wood with the strength of steel. Model 9700 comes with foamed-in-place polyurethane insulation with an R-value of 10*, which can improve your home's thermal efficiency, block street noise and make the door operate more quietly. This door also offers wind load options, pinch-resistant

panels and the TorqueMaster® Plus, Wayne Dalton's exclusive counterbalance system that safely contains springs inside a steel tube.

*Wayne Dalton uses a calculated door section R-value for our insulated doors.

Model 8800 Contemporary Aluminum

Wayne Dalton's full-view aluminum garage doors are designed to complement modern homes, with clean lines and an array of finishes. The design of these doors focuses on windows, allowing ample amounts of light to enter the garage when the door is closed. Standard product features include a flexible vinyl bottom that helps prevent dirt and debris from entering the enclosed space, tongue-and-groove joints to act as a great weather barrier and reinforced fins along with heavy-duty track and brackets to aid in years of smooth operation. Model 8800 offers a variety of glass options surrounded by aluminum frames that are available in both powder coat paint and anodized finishes.

###

About Wayne Dalton

Wayne Dalton, a division of Overhead Door Corporation, is a world-class brand that has designed and manufactured residential and commercial garage doors since 1954.
