For selection of inserts for each product refer to Window Guide. With any of the above configurations, some product options may have additional limitations. See product literature for additional details. \* Wayne Dalton uses a calculated door section R-value for our insulated doors. \*\*Total Pack doors include weather stripping for top and sides. Product size limitations depend on product series. \*\*\*See wind load documents on website for details. †See full warranty for details. Actual colors may vary from brochure due to fluctuations in the printing process. Always request a color sample from your Dealer for accurate color matching.
