## **Wayne Dalton Adds New Panel Design and Premium Colors to Model 9510 Designer Steel Garage Door**

*Ridgefield panel with recessed pinstripes and Desert Tan, Terra Bronze, Gray and Black premium colors are now available*

**December 5, 2019** - Wayne Dalton, a leading manufacturer of residential and commercial door solutions, has expanded its product offerings with additional design selections for Model 9510 Designer Steel garage doors. New options include the brand-new Ridgefield panel that features recessed pinstripes, as well as Desert Tan, Terra Bronze, Gray and Black premium color paint finishes. Homeowners can now achieve added customization for the ultimate curb appeal boost with the look of a carriage house door, but with the value and maintenance of the Designer Steel collection.

“The Ridgefield panel offers a unique pinstriped panel with a bold, recessed stamp design,” said Wayne Dalton Senior Product Manager Russ Lowe. “The new paint finishes enhance the old-world charm of our Model 9510 Designer Steel doors while adding a modern edge. With new contemporary color offerings, including black and gray, the 9510 is both trendy and classic.”

Similar to the other Model 9510 Designer Steel panels, the Ridgefield panel is pinch-resistant to help prevent finger injuries while the door is closing and features TorqueMaster® Plus, Wayne Dalton’s exclusive counterbalance system that safely and cleanly contains the door’s springs inside a steel tube. Model 9510 doors also come with foamed-in-place polyurethane insulation with an R-value of 12\*, which can help reduce street noise and make the door operate more quietly.

In addition to the new premium paint finishes, Model 9510 Designer Steel doors are available in four standard colors — White, Almond, Sandstone and Brown — or can be customized to closely match any idea imaginable with the Wayne Dalton® TruChoice® Color System that offers more than 6,000 color choices on a variety of doors and styles.

\*Wayne Dalton uses a calculated door section R-value for our insulated doors.
