**DOOR FEATURES**

- **Durable door construction**
  PVC color construction means scratches are less visible because the color goes all the way through the material. The UV-Resin used in the door’s construction contains special polymers that protect the door from the sun’s harmful ultraviolet rays. Ideal for coastal regions for its resistance to salt air and sand.

- **TorqueMaster® Plus Counter Balance System**
  Contains springs safely inside a steel tube to prevent accidental release of tension that could cause injury and features anti-drop safety technology.

- **High Cycle Spring Option**
  Choose a 25,000 cycle spring for more than twice the life of a standard torsion spring.

- **Wind Load Options**
  Available with structural reinforcements for use in coastal or high wind region.

- **15 Year Limited Warranty**

*Wayne Dalton uses a calculated door section R-value for our insulated doors.*

**Engineered to be maintenance free for easy-care living, Model 8700 won’t rust, fade, crack or dent.**
