Westfield panel, Custom painted after installation, Stockbridge windows
The Wayne Dalton Model 9405 is rugged, low maintenance, and thermally efficient. This model includes important safety features like our exclusive pinch-resistant design.

These beautiful carriage house doors can be custom painted to add extra style and charm to the exterior of any home.

PERFORMANCE FEATURES

**Thermal Efficiency**
The foamed-in-place polyurethane insulation with an R-value* of 10 improves the thermal efficiency of a home and blocks unwanted street noise from entering living areas that adjoin the garage. The steel backer adds beauty and strength to the interior of the garage door.

**Pinch-Resistant Door Panels**
Pinch-resistant door panels are designed to push fingers safely out of harm’s way when the door is closing.

**High Cycle Spring Option**
Choose a 25,000 cycle spring for almost twice the life of a standard torsion spring.

**TorqueMaster® Plus Counterbalance**
The Wayne Dalton TorqueMaster® Plus is the first counterbalance system to seal springs safely within a steel tube. It contains an anti-drop feature that reduces the risk of door free fall.

**Warranty**
Model 9405 offers a Limited Lifetime Warranty against cracking or splitting due to rust-through and against degradation of the foam insulation. See full warranty for complete details.

*Wayne Dalton uses a calculated door section R-value for our insulated doors.
