FOR IMMEDIATE RELEASE

Wayne Dalton Architect's Tool Simplifies Project Specification

Architect Resource Center is Home for Commercial Application Resources

LEWISVILLE, Texas (August 18, 2014) – The job just got easier for architects, designers and project specifiers – at least when it comes to determining the appropriate sectional or rolling door needed for an upcoming project.

Wayne Dalton recently pulled its resources for architects and project specifiers into one, easy-to-access location: the Architect Resource Center at Wayne-Dalton.com. The online tool provides easy access to all technical and resource materials needed to support any project. Product information includes downloadable project technical drawings and information, project specs and product brochures.

“Architects and project specifiers are tasked with creating buildings that meet certain standards, are aesthetically pleasing, and functional – and, we understand the importance of comprehensive manufacturer’s specs to make that happen,” said Joe Dachowicz, vice president of marketing for Wayne Dalton. “Our goal is to make this process a little easier for them.”

In addition to the Architect Resource Center, Wayne Dalton has an Architect Support Line where building professionals can find answers to more detailed questions.

To utilize the Wayne Dalton Architect Resource Center or to learn more about the many residential and commercial garage door products Wayne Dalton offers, visit www.Wayne-Dalton.com, like Wayne Dalton on [Facebook](https://www.facebook.com/waynedalton) or follow Wayne Dalton on [Twitter](https://twitter.com/waynedalton). For the Architect Support Line please call 1.800.764.1457.

About Wayne Dalton

Wayne Dalton, a division of Overhead Door Corporation, is a world-class leader that has designed and manufactured residential and commercial garage doors for over 50 years. For dealers, the company is known as a proactive business partner that prides itself on providing a wide variety of easy-to-install innovative products and smart sales tools that help them grow their business. At the same time, Wayne Dalton simplifies the purchase process by providing a full range of door options and styles through conveniently located dealers. Nine manufacturing facilities, over 70 Sales Centers and over 2,000 independent dealers, both domestic and international, ensure unmatched distribution. Wayne Dalton continues to expand its offering into other building material categories, and offers a complete line of Fabric Shield Storm Protection Products.
