FOR IMMEDIATE RELEASE

NEW MANUFACTURING LINE REDUCES LEAD TIME FOR WAYNE DALTON DEALERS

LEWISVILLE, TEXAS (June 18, 2015) – Wayne Dalton dealers can provide shorter lead times to their customers thanks to a new discontinuous manufacturing line at the Mount Hope, Ohio plant. This production line makes doors section by section, allowing for efficient manufacturing and flexible production.

The discontinuous line is available on several popular models of Wayne Dalton garage doors, including Models 9700, 9800, 9100 and 9600, and reducing the lead times for these models significantly.

“Wayne Dalton dealers can expect to have their doors much faster as a result of the new manufacturing line,” said Mark Sawicki, residential steel product manager for Wayne Dalton. “Our goal is to provide faster lead times and strengthen our position as industry leaders.”

For more information on Wayne Dalton garage doors, or to find a Wayne Dalton garage door dealer, visit www.Wayne-Dalton.com, like Wayne Dalton on [Facebook](#), follow Wayne Dalton on [Twitter](#) or find us on [Google+](#).

About Wayne Dalton

Wayne Dalton, a division of Overhead Door Corporation, is a world-class leader that has designed and manufactured residential and commercial garage doors for over 50 years. For dealers, the company is known as a proactive business partner that prides itself on providing a wide variety of easy-to-install innovative products and smart sales tools that help them grow their business. At the same time, Wayne Dalton simplifies the purchase process by providing a full range of door options and styles through conveniently located dealers. Nine manufacturing facilities, over 70 Sales Centers, and over 2,000 independent dealers, both domestic and international, ensure unmatched distribution. Wayne Dalton continues to expand its offering into other building material categories, and offers a complete line of Fabric Shield Storm Protection Products.
