FOR IMMEDIATE RELEASE

New Holmes County Fairgrounds to Feature Wayne Dalton Doors
Wayne Dalton Donates Garage Doors to Support Community

MILLERSBURG, Ohio (July 28, 2016) – The Holmes County Fair is receiving a makeover this year to continue to provide family-friendly entertainment for the community, and Wayne Dalton is proud to partner with the fair to make this year better than ever.

The Mount Hope based Wayne Dalton plant donated 13 Thermospan® Model 200 commercial sectional garage doors, which feature two integral steel struts for strength and an aluminum full-view window, for the fairground's livestock facility at Harvest Ridge. These donated doors allow the fair to continue to provide fun, entertainment, shelter and plenty of natural light for all fair attendees this August.

"We can't thank wonderful donors and partners like Wayne Dalton enough," said Kerry Taylor, board president for the Holmes County Fair. "The doors are an essential part of the facility, and will allow us to easily provide access to the welcome center for everyone that comes to enjoy the fair this year."

2016 marks the 93rd anniversary of the fair, and the community continues to come together to support this project and bring the new fair at Harvest Ridge to life. The new fairgrounds will feature state-of-the-art livestock facility with restrooms, a meeting room and livestock holding area of nearly 30,000 square feet.

"Wayne Dalton recognizes the Holmes County Fairgrounds is an integral part of the community just as we are. We are proud to be involved with a wonderful project like this in our neighborhood," said Rick Vannan, regional director of operations at Wayne Dalton.

"The greater Holmes County community has raised over \$7 million in grants, cash and in-kind contributions, and we could not have accomplished this without the generous support of local companies, such as Wayne Dalton," concluded Taylor.
