FOR IMMEDIATE RELEASE

Vinyl Decal Option Now Available with Wayne Dalton Garage Doors *Commercial Rolling Steel Doors Now Offered With Customizable Decal Options*

LEWISVILLE, Texas (Aug. 15, 2014) – Businesses looking to leverage their company name and increase brand awareness can now order custom vinyl decals from Wayne Dalton.

The vinyl decals can be added to any of Wayne Dalton's commercial rolling steel doors in any of the standard materials and finishes including galvanized steel, primed or powder coated steel, stainless steel and aluminum.

"Adding this option to our commercial rolling steel doors will make our dealers more competitive in the rolling steel marketplace," said Jennifer Malcuit, Rolling Steel Product Manager of Wayne Dalton, a premier supplier of commercial garage doors to businesses nationwide. "Providing our customers with the ability to put custom branding on a variety of our rolling steel products gives them the best of both worlds – an excellent door with a branded message."

Several businesses have already taken advantage of the new vinyl decals, and have been pleased with the results. Decals can even be used for numbering, such as on dock doors. Malcuit also emphasized how Wayne Dalton continually looks for opportunities for improvements to better serve consumers and their needs while providing quality products and services.
