FOR IMMEDIATE RELEASE

WAYNE DALTON GARAGE DOORS NAMED MOST-USED BRAND IN BUILDER MAGAZINE'S NATIONWIDE STUDY

Results Show Homebuilders Choose Wayne Dalton

LEWISVILLE, TEXAS (April 12, 2016) – Wayne Dalton, a premier manufacturer of garage doors, has earned the distinction of being the industry's most used brand in the past two years, as determined by Builder Magazine's 2016 Builder Brand Use Study.

The Builder Magazine's Builder Brand Use study is a survey of the nation's largest homebuilders. It asks readers and homebuilders to rank garage door brands in a variety of categories including ease of installation, product performance, strength of the manufacturer's reputation and availability of product. For the second year in a row, Wayne Dalton took the top honor of the brand most used in the past two years.

"To be named brand used most in the past two years for the second time in a row shows the great commitment our dealers and employees have in producing excellent products and garage door solutions for our homebuyer, remodeler and architect partners," said Sarah Schram, brand manager for Wayne Dalton. "We're excited to continue Wayne Dalton's innovative legacy in the coming year."

Since 1995, Builder Magazine has conducted the Brand Use Study annually, measuring 70 different product categories ranging from appliances to windows. The results of the 2016 Brand Use Study were announced in Builder Magazine's April Buyer's Guide issue. The publication is distributed to more than 10,800 builders across the nation.
