FOR IMMEDIATE RELEASE

WAYNE DALTON ADDS NEW OFFERING IN CLASSIC STEEL COLLECTION

New Design Allows Dealers More Choices for Their Customers

LEWISVILLE, TEXAS (July 6, 2015) – Wayne Dalton, a premier manufacturer of garage doors, is pleased to announce the addition of a new design to its Classic Steel Collection.

The Sonoma Ranch design, offered in Models 9100, 9600 and 8300, is a long panel version of the popular Sonoma panel. The door will be built with 18- and 19-inch sections, allowing for more retrofit size options. The Sonoma Ranch panel will be available in widths from 8 to 18 feet and sold in 6-inch increments with 1-inch increments sold via special order. All current colors will be available with the new design, including the bi-directional wood grain finishes that are offered with the Model 8300.

“With the expanded selection of Classic Steel panel designs, homeowners can find a design that perfectly complements their home’s architecture,” said Sarah Schram, brand manager for Wayne Dalton. “The Sonoma Ranch design is yet another option homeowners can choose to make their garage door stand out from the rest.”
